Introduction

The 1997 *Catalog of ERIC Clearinghouse Publications* highlights more than 1,400 available education titles produced directly by the Educational Resources Information Center (ERIC) system. The titles are arranged by ERIC component and cover a broad range of subject areas in education.

The major ERIC publication types include:

- Parent Brochures: short, informative articles designed for teachers, parents, and the general public.
- Directories and Resource Guides: direct users to primary sources of information, such as institutions or associations that provide services to the public or exemplary programs and practices.
- ERIC Digests: brief, two-page documents summarizing current information on specific education topics.
- ERIC Monographs/Reports: more comprehensive publications, generally 30 pages or longer, that summarize the research in a particular field, analyze new teaching methods or school reform strategies, highlight recent studies and their implications, or examine important education trends and issues.
- Searches and Annotated Bibliographies: direct the reader to carefully selected documents or materials organized by topic area.

The *Catalog* provides ordering information and prices and includes a subject index to help you locate publications in your area of interest quickly. The subject index also refers you to the appropriate Clearinghouse or ERIC support component to order publications. Addresses, telephone numbers, and Internet addresses for specific Clearinghouses can be found on the inside front cover.

To order publications, complete the order form found at the end of this *Catalog* and mail it to the appropriate ERIC component or phone, fax, or e-mail the component directly. (Several forms are included for your ordering convenience.) If you would like additional copies of the *Catalog* or need further help in ordering, please call ACCESS ERIC's toll-free number, 1–800–LET–ERIC (538–3742).

Please note that prices and supplies listed in this *Catalog* are subject to change. You can verify availability through the appropriate Clearinghouse.

ERIC Online Publications Catalog Goes Live!

Have you been waiting for ERIC to offer one convenient place through which you can browse ERIC-produced materials and order them electronically? Well, wait no more! In April 1997, ERIC introduced its prototype ERIC Online Publications Catalog.

The Catalog includes free and fee materials that selected ERIC Clearinghouses and support components have recently produced, and—best of all—it allows you to order them electronically via a secure server. Each publication listing shows a digitized copy of the cover, provides a description, and includes the author(s), price, and contributing component's toll-free number in case you'd like to call for more information.

Ordering is easy. Search the Catalog by keyword, source, or title, or simply browse through the 80-plus titles currently offered. Indicate which materials you'd like to receive in the mail, and submit your order electronically. Your order(s) will be processed and mailed within two to three business days.

ACCESS ERIC hosts the ERIC Online Publications Catalog on its systemwide Web site at <http://www. aspensys.com/eric/catalog>. While there are currently more than 1,400 ERIC-produced publications available for free and for sale, during its pilot phase the Online Catalog will be limited to select titles contributed by the following ERIC components:

ACCESS ERIC
Counseling and Student Services
Disabilities and Gifted Education
Elementary and Early Childhood Education
Higher Education
Reading, English, and Communications
Urban Education

We encourage you to visit the Catalog Web site and try it out. A feedback form is included to enable you to submit your comments.
